Dear Mr. Name:

ATC Environmental Inc. provides consulting, testing, and management services to assist Architectural and Engineering firms in properly addressing environmental, health, and safety requirements for all types of projects.

How can ATC help your firm?

- ATC is a **full-service** environmental consulting firm providing the following services to better address your specific needs: Asbestos, Lead, Environmental Management, Industrial Hygiene/Indoor Air, Environmental Training, and Litigation Support.
- ATC's staff of **multi-state credentialed** professionals are highly-skilled. ATC staff includes Licensed Site Professionals; Registered Professional Engineers; Environmental Engineers; Master Lead Inspectors and Risk Assessment Specialists, Asbestos Inspectors, Designers, and Monitors; Geologists; Industrial Hygienists; and Certified Industrial Hygienists, among others. Our professionals are fully supported by our **in-house** Analytical Laboratory.
- ATC has extensive experience with **construction, renovation, and demolition** projects. ATC's **wide client base** includes local, federal, and state governments; manufacturing and industrial companies; real estate firms; Fortune 500 companies; construction firms; and numerous architectural and engineering firms.
- ATC offers **comprehensive** services that can be **customized** to the client's specific needs. By working closely with the client, ATC is able to provide the most **cost-effective** methods for meeting the client's budget and stated environmental objectives.
- ATC is **fully insured** against both general liability and professional errors and omissions for environmental consulting services, including pollution liability, to the **maximum amount available** (\$5,000,000) by American International Surplus Lines Insurance Company (American International is rated A+ by Best's).
- ATC's work with A/E firms throughout **New England and the U.S.** has provided us with a thorough working knowledge of the intricacies associated with the A/E field, such as **AIA documents and terminology**, CSI and other specification formats, ROICC reports, CAD and other trade specifics.
- ATC will **compliment your team** of A/E professionals by providing **environmental expertise**, credentialed staff, sound references, technical assistance and analytical services, as needed.

An ATC representative will call you in the next week or so to see how we may specifically address your requirements. In the meantime, feel free to call me at 617-932-9400 to discuss ATC's complete capabilities and qualifications, or to request an updated information packet. I look forward to speaking with you.

Very truly yours,
ATC ENVIRONMENTAL INC.
